Unbreakable Sleeve Nut

Body bored and reamed

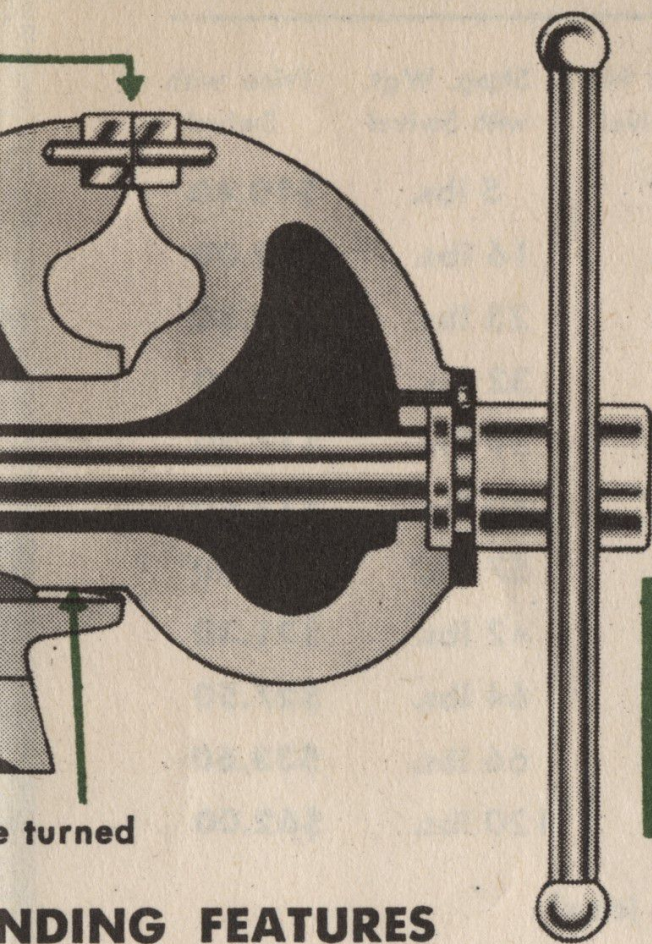

Key way broached

Entire base surface and movable jaw lath

A FEW OF THE MANY OUTSTA FEATURING THESE IMPRO

- 1 Practically indestructible.
- 2 Spindle precisely threaded and accurately fitted. Horizontally anchored nut eliminates wear and strain.
- 3 Main body guided by accurately fitted steel key — no side twist —
- 4 All parts bored and reamed to narrowest tolerances.
- 5 Body parts entirely encased. No chips or dust can enter.
- 6 Greater holding power because of logically correct arrangement of nut and spindle.

e turned

ENDING FEATURES MOVEMENTS

- 7** Jaws are interchangeable and reversible. Available with parallel or diamond serrations, or smooth, soft or hard steel, brass, copper and plastic.
- 8** Swivel type can be converted into stationary base by removing swivel base. No double stock to be maintained by dealers.
- 9** Top of jaws and anvil are surface ground and precisely parallel.
- 10** Five Year Guarantee for best workmanship and material. Defective vises will be repaired or exchanged gratis within said period, unless wrecked by sheer force or abuse. We are, however, not responsible for freight charges involved in such a transaction.

**Sold With
Five Year Guarantee**

THE WILTON COMBINATION PIPE AND BENCH VISE

Precision-built

This latest type of Wilton vise displays all the excellent features of our standard bench vises, as described in this folder. The pipe jaws made of deeply case hardened steel are individually milled, hence sharp and strongly gripping. They too are reversible and interchangeable. This vise conforms with Type IV of Federal Specifications GGG-V-436a.

Ordering No.	Width of Jaws	Holds Pipes	Maximum usable opening
C-1	4½"	⅛ to 3½"	5½"
Depth of Throat	Shipping Wt.	Price with Swivel Base	
4½"	68 lbs.	\$29.60	
Extra jaws 4½", steel, smooth or serrated...			\$5.10 per pair
Extra jaws 4½", copper or brass.....			\$6.00 per pair
Extra pipe jaws with four pins.....			\$7.00 per pair
